FOR IMMEDIATE RELEASE

RTP Tech Company I-Cubed Celebrates 25th Anniversary
Best Growth Year Despite Economic Downturn

Raleigh, NC, December 31, 2009 – Integrated Industrial Information, Inc. (I-Cubed), the Engineering Business Integration (EBI) company, is proud to celebrate its 25th anniversary — the best year ever! I-Cubed experienced a banner year in 2009 despite the widespread downturn in the economy.

A number of factors contributed to significant revenue growth of 36% and increased profitability in 2009: key wins within the aerospace/defense, automotive, and telecommunications industries; product and partner diversification; and the addition of 2 new executives, 10 new employees, and 3 new channel partners. I-Cubed is celebrating these successes along with the company's 25th anniversary in 2010.

Founder Grant Willard started I-Cubed, in 1984, upon graduation from NC State University with the development of CAD-PACK, a 2D drafting tool that was originally developed as educational software for computer-aided design (CAD). CAD-PACK allowed users to gain valuable design experience without consuming expensive seat time on mainframe CADAM and is still in use today. Over the last 25 years, I-Cubed has played an integral role in the history of CAD development, having licensed their technologies to software giants such as Adobe®, AutoDesk®, and Parametric Technologies Corporation (PTC®).

In 2006, I-Cubed became an employee-owned company and transitioned leadership to current President and CEO, Donald A. Thompson, Jr. Since the transition, I-Cubed has diversified its product and service offerings to include a broader global services practice, data migration services, and new products for supply-chain collaboration.

For more information on how I-Cubed reached considerable growth despite economic downturn, please visit www.i-cubed.com.

About I-Cubed

Since 1984, I-Cubed has been developing solutions that maximize the tremendous potential of engineering assets across the enterprise. I-Cubed is a leader in CAD Data Migration, Business Process Consulting, Product Lifecycle Management (PLM) consulting, and software development. Find out more at www.i-cubed.com.
